PREFACE.

We present to our numerous patrons our Second Annual City Directory of Indianapolis, with a consciousness that no effort has been spared to insure the fullest completeness of the information herein contained. We are confident there has never been a more thorough and systematic canvass of the city made.

The *Business Directory* represents the business and manufacturing interests more correctly than has ever been before represented by such a medium. The *City Guide* furnishes much useful information to both citizen and stranger. The difficulty of compiling a City Directory can hardly be understood, and is not easily explained, yet we believe that the Directory for 1873 is more nearly correct than any of its predecessors. We have endeavored, and we think successfully, to obviate several difficulties attending former canvasses. The book itself is the best evidence of the improvement effected, though we do not claim absolute exactness. The present issue contains 21,490 names, against 19,360 in 1872; and on the basis of three persons to each name, gives a population of fully 65,000 persons, bearing out our anticipations concerning the growth of the city. The Directory contains a great amount of information concerning the Public, Religious, Charitable and Private Institutions of the city, which makes it a valuable present record, as well as historical authority.

Every person should have at his place of business, or at his house a Directory, not only as a daily convenience, but also as a valuable record of local history. An examination of the book will disclose its permanent value.

Our thanks are due to our numerous patrons for their liberal support and respectfully solicit a continuance of the same.

Respectfully

THE PUBLISHERS.

STATEMENT JANUARY 31st, 1873.

CAPITAL,	*$250,000.00*
ASSETS,	*261,746.58*
LIABILITIES,	*3,604.97*
LOSSES PAID DURING 1872,	*10,682.44*

Advantages of Insuring in the Franklin Ins. Co. of Indianapolis, Ind.

1. No Premium Notes and no Assessments.
2. Losses equitably adjusted and promptly paid.
3. The Officers, Directors and Stockholders are our neighbors and fellow citizens, personally known to many.
4. Its solvency and character can be easily ascertained, so that you do not have to depend upon arrays of figures on handbills and placards, of which you know nothing and can not investigate.
5. In patronizing a reliable home intsitution, such as this, with at least equal security, you give aid and encouragement to a home enterprise. Your money is retained at home, adding so much to home wealth, and promoting its general business interests.

In view of these facts, and the above responsible names before you, does not local pride and self-interest alike dictate that a part of your insurance at least should be given to the FRANKLIN?

EDWIN MAY,

ARCHITECT AND SUPERINTENDENT

Office, No. 5 and 6 Glenn's Block. Residence, 173 North Pennsylvania Street,

INDIANAPOLIS, IND.

Court-Houses, Prisons and Fire-Proof Buildings a Specialty.

FIRE-PROOF BUILDINGS

Patented January 26, 1869. April 13, 1869. May 4, 1869. June 28, 1870.

EDWIN MAY will furnish the material and superintend the Fire-Proofing of buildings in any part of the United States.

PATENT JAIL.

I have invented and patented "Improvements in the Construction of Prisons" which will successfully obviate all necessarily dangerous contact of the jailor with those in charge; and which, in sundry other respects, confers upon the jailor the absolute control over the actions of his prisoners.

In my arrangement, the jailor need never come in contact with the prisoner. There is always a grating of iron between the keeper and the confined. They are under his control and at his command all the time, without the risk of direct communication; the danger of which is known to all who have had the charge of prisons.

Each cell is fastened, and, by a counter movement, opened separately from the other, and any one cell can be locked or unlocked from without the corridor. Rooms for female prisoners, insane persons, and hospital patients, are made perfectly safe, and together with the residence for sheriff, completely fire-proof.

SAW AND FILE PROOF PRISON GRATING.

The advantage of this grating is the perfect security offered over the old method of common iron window grates; however large the bars, they could be easily sawed off, and the larger the bars the more obstruction to light and ventilation. This grating can be used for prison doors and corridor partitions.

Celebrated WROUGHT IRON Air Tight

HEATING FURNACES.

WARRANTED FREE FROM

GAS, SMOKE AND DUST.

AND

Adapted to the Use of All Kinds of Western Coal or Coke, as well as Anthracite Coal or Wood.

Making a specialty of Heating Dwellings and Public Buildings, we are prepared to fully guarantee our work and to furnish ample city references as to the superiority of the "Reynolds Furnace."

The following is an extract from the "Scientific American" of the 15th of March, 1873:

"It has been proved by careful experiments, in this country and in England and France, that Carbonic Oxide and Carbonic Acid Gases will freely pass through Cast Iron, when under the influence of heat.

"This metal should, therefore be discarded in the construction of HOT AIR FURNACES, and WROUGHT IRON substituted. The latter does not permit these deadly gases to pass through."

CUMMINS'

SPECIFIC

FOR THE

HAIR.

THE ONLY CERTAIN AND SPEEDY

CURE FOR BALDNESS

EVER DISCOVERED.

It is PURELY VEGETABLE, containing nothing injurious to the health or hair. It is one of the best of dressings for the toilet, cleansing the scalp from all impurities, giving it a healthy tone, and making the hair soft, beautiful, and glossy. A few applications will effectually

STOP THE HAIR FROM COMING OUT.

From one to two bottles will CURE MOST CASES OF BALDNESS, giving it a fine, healthy growth of hair.

It will not color hair already grown, but will restore GRAY HAIR by growing it out anew, with its original color.

Testimonials from some of the Best Citizens of Indianapolis can be seen if desired.
